PROFILE

Front-End Web Developer with over two years of hands-on experience in building responsive, user-friendly web applications using React.js, JavaScript, HTML, and CSS. Skilled at translating UI/UX designs into functional code, optimizing performance, and ensuring cross-browser compatibility. Passionate about creating clean, modern interfaces and continuously improving user experiences through best coding practices and modern frameworks.

SKILLS

- **Front-End:** React.js, HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS
- **API Integration:** APIs, JSON, Fetch API
- **Development Tools:** VS Code, npm, Node.js (basic)
- **Core Competencies:** Responsive Web Design, UI/UX Implementation, Performance Optimization, Debugging, Problem Solving

EXPERIENCE

FRONT-END WEB DEVELOPER

Pakistan | Jan 2023 – Present

- Designed and developed interactive, responsive web applications using React.js, HTML5, CSS3, and JavaScript.
- Integrated RESTful APIs for dynamic content and seamless front-end functionality.
- Web solutions, from landing pages to full-scale dashboards.
- Applied state management using React Hooks and Context API for scalable application performance.
- Ensured cross-device compatibility and optimized site loading speed using code-splitting and lazy loading techniques.

PROJECTS

- **1. E-Commerce Store (React.js)**
 - Built a fully responsive online store featuring product listings, cart functionality, and payment simulation.
 - Utilized React Router for seamless navigation and Context API for cart state management.
- **2. Portfolio Website**
 - Developed a personal portfolio website showcasing projects, skills, and contact information using React and CSS animations.
 - Focused on UI/UX and accessibility for optimal visitor experience.
- **3. School Management Website**
 - Added real-time updates for notices and announcements using React State Management and conditional rendering.
 - Built responsive dashboards student complaint roles, with secure routing and authentication logic.
 - Designed intuitive data tables and form components using Javascript, CSS and React Hooks.
